

SEO progress update — domain go-live

Sweet Home · Technical SEO + domain migration

Live primary domain: **sweethome-immobilien.de**

Legacy domain (301 forever): **sweet-home.co.il**

Updated: 28 July 2026

We are live on sweethome-immobilien.de (go-live: 27 July 2026).

Pre-migration technical fixes, Spanish removal, dead-URL cleanup, and the domain switch (canonicals, redirects, sitemap, GA4, GSC Change of Address) are done and verified.

Still open: disavow upload on the new property (#13), first-weeks GSC monitoring (#14), and any business URL updates (Meta / GBP / email) if not already moved to .de.

1. Headline status

Area	What	Status
Primary domain	sweethome-immobilien.de serves the site; canonicals / hreflang / sitemap use .de	Live
Legacy domain	sweet-home.co.il → 301 → same path on .de (kept live forever)	Live
GSC	.de property verified; sitemap submitted; Change of Address confirmed	Done
GA4	Same property / stream (G-6PL29347V3); website URL set to .de	Done
Spanish (/es)	Removed from switcher / hreflang / sitemap; /es/* 301 to DE equivalents	Done
Disavow	Upload toxic-backlink file on the new .de GSC property	SEO
Post-launch watch	GSC coverage, clicks, new 404s — expect a short dip then recovery	SEO

2. Migration checklist (go-live tracker)

Source: Sweet Home Migration Checklist (before / switch / after).

#	Task	Status
1	Dead URLs (#7): 301 / 410 per classification list	Done
2	Confirm 1:1 redirect map (.co.il → same path on .de)	Done
3	Add & verify sweethome-immobilien.de in Search Console	Done
4	Point GA4 to the new domain	Done
5	Pick go-live date	27 Jul 2026
6	Set .de as primary; canonicals self-reference .de	Done
7	Internal links / menu / footer use clean / .de URLs	Done
8	hreflang: en + de, keep /en, drop /es, retire /de prefix	Done
9	Publish .de sitemap	Done (320 URLs)
10	301 every .co.il URL to exact .de match	Done
11	Submit sitemap + Change of Address in GSC	Done
12	Test ~30 sample redirects (no loops)	Done (35/35 PASS)
13	Upload disavow file on .de property	Open — SEO
14	Watch GSC: coverage, clicks, 404s	Open — SEO
15	Keep .co.il + redirects live long term	In place

3. Pre-migration technical fixes (all done)

#	Item	Status
10	Doubled-brand titles	Done
11	Language-correct titles & H1	Done
12	Missing meta descriptions	Done
13	Homepage schema + Berlin focus	Done
14	Over-optimised district link blocks	Done
15	Contact form tracking (contact_form_submit in GA4)	Done
5	Filter & pagination duplicates	Done
6	Broken language URLs (/de/en, /es/en)	Done
7	Old dead URLs — 378×301 + 71×410 (incl. Spanish rows) + /es catch-all	Done
—	Spanish removal (switcher, hreflang, sitemap, routes)	Done
16	Disavow toxic backlinks	SEO on .de

4. Live verification notes (27–28 Jul)

- **Canonical / hreflang** on homepage: de, en, x-default — all on sweethome-immobilien.de.
- **Sitemap:** <https://sweethome-immobilien.de/sitemap.xml> — 320 URLs, no /es, no .co.il.
- **Redirects:** apex .co.il → matching .de path in **1 hop** for live URLs.
- **Legacy cleanup** (/de/..., /es/..., ?page=1, filter→clean path): domain hop + path fix = **2 hops** — expected, no loops.
- **www.sweet-home.co.il:** 2 hops via apex (Render www rule) then to .de. Acceptable; optional later CDN rule for a single hop.
- **Sample set (#12):** 35 URLs tested — 35 PASS, 0 loops, 0 fails.

5. What's still missing (for SEO / business)

1. **Disavow (#13):** prepare / upload the disavow file on the **.de** Search Console property (not on .co.il).
2. **Monitor (#14):** watch GSC on .de for coverage, clicks, new 404s / redirect errors over the next 2–4 weeks. A short ranking/traffic dip is normal.
3. **Business URLs (if not done):** Meta ads landing pages, Google Business Profile website, email signatures / templates → sweethome-immobilien.de.
4. **Do not** remove .co.il or turn off the 301s — leave them permanently.

6. Suggested next actions

1. SEO: upload disavow on .de when the file is ready.

2. SEO: weekly GSC check on .de (indexed count up, 404s/redirect errors stable).
3. Business: confirm paid + GBP + email no longer point at .co.il or /es.

Prepared for SEO handoff · Sweet Home domain migration · 28 July 2026

Primary: <https://sweethome-immobilien.de> · Legacy redirects: <https://sweet-home.co.il>
